San Jose State University .
1 Washington Sq, San Jose, CA 95192
San Jose, CA 95192

Dear Professor Fung

I am writing to present my online portfolio for my Digital Media Art course at San José State University. As I continue developing my creative practice, this website acts as a curated space that reflects both my technical growth and my artistic direction. It brings together my work across 2D art, 3D animation, graphic design, UI/UX design, motion graphics, video, and interactive media in a way that shows how my voice is developing across different digital forms.

This portfolio showcases my overall practice as a digital media artist, with a focus on the relationship between technology, music culture, digital space, and visual art. My goal with the website is to create a clear and engaging presentation of my work while still keeping the design connected to my personal style. The site includes my biography, artist statement, CV, contact information, and a selected collection of artworks with captions and labels. Rather than just being a basic gallery, I wanted the website to feel like an extension of my creative identity, almost like its own digital environment.

Sincerely,

Richard Rojas

ARTIST STATEMENT

MY WORK EXPLORES THE INTERSECTION BETWEEN TECHNOLOGY, MUSIC CULTURE, DIGITAL SPACE, AND VISUAL ART. I WORK ACROSS 3D ANIMATION, 2D ANIMATION, GRAPHIC DESIGN, UI/UX DESIGN, MOTION GRAPHICS, VIDEO, DIGITAL PAINTING, AND INTERACTIVE SYSTEMS BECAUSE I DO NOT WANT MY PRACTICE TO BE LOCKED INTO ONE SINGLE MEDIUM. I AM INTERESTED IN BUILDING VISUAL SPACES WHERE SOUND, MOVEMENT, IDENTITY, AND TECHNOLOGY CONNECT WITH EACH OTHER, ALMOST LIKE THEY ARE ALL PART OF THE SAME SYSTEM.

A LOT OF MY INSPIRATION COMES FROM MUSIC VIDEOS, RAVE VISUALS, ELECTRONIC MUSIC CULTURE, AND INTERNET AESTHETICS. I AM ESPECIALLY INSPIRED BY THE WAY DAFT PUNK USES TECHNOLOGY, HELMETS, LIGHT, PERFORMANCE, AND IDENTITY TO CREATE SOMETHING ICONIC AND ALMOST LARGER THAN LIFE. THEIR WORK SHOWS HOW SOUND AND IMAGE CAN BECOME A COMPLETE VISUAL LANGUAGE. I ALSO TAKE INSPIRATION FROM S3RL AND RAVE MUSIC BECAUSE OF THE SPEED, COLOR, RHYTHM, AND EMOTIONAL EXAGGERATION THAT COMES FROM THAT KIND OF SOUND. THAT ENERGY INFLUENCES HOW I THINK ABOUT MOTION, LIGHTING, ANIMATION, AND THE FEELING OF BEING INSIDE A FAST-MOVING DIGITAL ENVIRONMENT.

IN MY 3D AND INTERACTIVE WORK, I ALSO CONNECT WITH ARTISTS LIKE ANDREW BLANTON, WHOSE DIGITAL MEDIA PRACTICE SHOWS HOW TECHNOLOGY CAN BECOME PART OF THE ARTWORK ITSELF, NOT JUST A TOOL USED TO CREATE IT. THIS IDEA IS IMPORTANT TO ME BECAUSE I WANT MY WORK TO FEEL LIKE TECHNOLOGY IS ACTIVELY PARTICIPATING IN THE PIECE. WHETHER I AM USING ANIMATION, LIGHTS, SCREENS, INTERFACES, OR DIGITAL EFFECTS, I WANT THE VIEWER TO FEEL LIKE THEY ARE ENTERING A VISUAL SYSTEM RATHER THAN JUST LOOKING AT A FINISHED IMAGE.
